## EVERY SIGMA BLOWS UP

### 01. Introduction

**\$ESBU – Every Sigma Blows Up** – is not just another meme token. It's a decentralized cultural phenomenon launched on the Binance Smart Chain (BSC), designed to capture attention, generate value, and empower its community through transparent tokenomics and explosive virality.

With **zero taxes, no presales, renounced ownership, and locked liquidity**, \$ESBU is engineered for long-term growth without centralized control.

Inspired by iconic tokens like \$PEPE, \$DOGE, and \$BOB, \$ESBU introduces a fresh narrative:

**Meme-powered velocity + community-backed trust = unstoppable momentum.**

Whether you're a crypto degen, a Web3 builder, or a meme connoisseur – \$ESBU is your ignition point.

**Final V3 Edition – launched and locked.**

### 02. Version History

#### **V3 – Every Sigma Blows Up (Final)**

Verified, renounced, and liquidity-locked.

The final and stable version of ESBU is now live – backed by a transparent contract, visible wallet structure, and a locked liquidity pool.

All eligible V1 holders received a 1:1 airdrop.

### 02. Version History

#### **V1 – Every Shit Blows Up**

The initial launch under ESBU V1 faced a contract approval bug that broke liquidity provisioning. Trading was technically impossible. V1 was discontinued and all V1 holders were later compensated 1:1 in V3.

### 02. Version History

#### **V2 – Every Sigma Blows Up**

A fixed contract with working functions – but an unstable price ratio during LP setup led to skewed trading dynamics. The team decided to upgrade to a final version with clean, trustable mechanics.

## 2. VISION & MISSION

### Vision

To become the most powerful meme-driven movement on BSC – rooted in humor, virality, and unshakable community energy.

### Mission

- Detonate without friction – no taxes, no presale, no middlemen.
- Make memes valuable again – by combining community momentum with clean tokenomics.
- Reward true holders through strategic distribution and long-term incentives.
- Operate with full transparency: renounced contract, visible wallets, locked liquidity.
- Build a global Sigma Tribe – united by memes, driven by impact.
